

Class Records

1A Wong Ching Wun

My group members have set some interesting class records. I'd like to share some of them with you.

Unusual finger

Usually, a person's finger is about 7cm long. But in class 1A, Tat Tsang's longest finger is more than 7 cm long! He holds the record for the longest finger. He has the longest finger in our group. His longest finger is 8.3cm long! That's a lot longer than his group members' fingers!

Tat Tsang lives in Fanling and he was born on 20th October. He is a quiet boy. He doesn't like his fingers too much because they look ugly. Although they are not beautiful, they are useful. They can take things easily.

Girls' dream legs

Many people think that models have gorgeous legs and many girls are jealous of them. But girls in 1A may be jealous of Tiffany Yau's legs now because they are the longest legs in our group. Tiffany's legs are 97cm long. They are much longer when compared to other girls' legs in our class! Tiffany wants to be a model. To her, her long legs are valuable assets for her future career.

Tiffany loves her legs so much! She thinks her legs are beautiful and useful. Tiffany was born on 9th June. She likes drawing and surfing the Net. Tiffany's dream is to be a model when she grows up. Maybe she can realize her dream in the future.

Do you find the records mentioned above interesting? Maybe you can try to break these records!
