

# Our School Picnic

1B Cheng Ka Ho

Today I saw many photos from my last picnic. They brought me a lot of good memories about what happened that day.

It was sunny on the picnic day. All the Form One students went to Pak Sin Leng Country Park at nine o'clock in the morning. Everyone was excited.

When we arrived at the country park, we all had free time. I helped my classmates to build a fire. But we had no idea about how to do it. Luckily, we sought help from our teachers and we successfully built a fire and had our barbecue. After that, I played ball games with my classmates. We invited Miss Lee to play with us, too! But we lost. Even so, we were very happy. I joined a cooking competition with some of my classmates. My team made some sushi. It was delicious. But we didn't win the competition. Many students took photos because they joined a photo-taking competition.

At about one o'clock, it was class game time. I played games with my classmates. We played a game called "Two people three legs". At first, as many students were very thirsty, they didn't want to play. But as Miss Lee suggested that winners of the game would be rewarded later, everyone was eager to join. It was fun. At about half past one, we had some inter-class activities. We played three games and they were exciting. I had a lot of fun.

At about three o'clock, we returned to school. I enjoyed this picnic very much. I have learnt to help other people. I hope the next picnic will be interesting too.
