

# **The Advantages of having a School Uniform**

2B Yung Pui Sho

In my opinion, having a school uniform is very important. In this essay, I shall explain why we should have a school uniform.

To begin with, people can know which school a student is studying at. All of the school uniforms have school badges. For example, if we want to know which school a student who smokes is studying at, we don't have to ask him or her. We just have to look at his or her school badge.

Another important argument is that we can save money. Students like fashionable clothes but it costs a lot of money. For instance, if we don't have school uniforms, we need to spend money on buying casual wear.

My final point is that having a school uniform is convenient. We shouldn't spend a lot of time choosing clothes for school. If we get up late and need to choose clothes, we will be late for school.

To conclude, I think that having a school uniform has many advantages, like saving money, easy to know our identity and convenience. So having a school uniform is very important.
